

PAST LIFE REGRESSION

ENHANCE YOUR HYPNOSIS PRACTICE USING PAST LIFE REGRESSION

TECHNIQUES TO HELP CLIENTS GAIN INSIGHTS INTO THEIR LIVES

presented by Michael R. Hathaway, FNGH, CI, OB, DCH

Recipient of the Ormand McGill Award

Past life discovery is becoming increasingly popular as a valuable tool to help people in a variety of ways. We are all constantly influenced, both negatively and positively, by past life memories hidden in our unconscious minds until something caused them to surface. This often results in a sudden and usually unexplainable reaction. At some point in their life, many people will develop a fear, phobia, or reaction to another person, or have a strong like or dislike for a certain period in history. A working knowledge of past life regression techniques will help the participant in this course uncover root causes of connections to other people, including attractions or dislikes, and the roles we play with each other in different lifetimes. You may help your clients discover and redevelop hidden talents, such as artistic, athletic or psychic.

You will practice four different types of past life regression:

1. Hypnotic Regression
2. Intuitive Readings
3. Group Regressions
4. Conversational Past life Regression

You will...

- * be able to recognize how past life influences can impact clients coming to you for a variety of issues, such as smoking cessation, weight loss, and stress control.
- * learn how past life memories of a negative experience can impact a client's ability to find success in their current life
- * learn how to assist a client in past life research to find provable evidence of who they were and where they lived
- * learn how to help find the root cause of an illness that began in another life and how to create a bridge to wellness.
- * receive a detailed workbook to assist in future past life regressions.

Testimonials...

"Michael Hathaway is an incredible trainer. Each time I'm at the conference I go out of my way to attend his workshops. It's always a great experience, and it's always great information. He is so talented and experienced as well as a prolific writer. I've had Michael speak at a couple of my events for my hypnosis chapter, and he is always brilliant and well received."

Kevin Martin – CH; Positive Effects, LLC, Lowell, MA

"Michael Hathaway has played a profound role in my emotional healing, personal and professional growth and expansion of belief systems. As a direct result of his expertise, patience and skills as a hypnotist, teacher and facilitator, Michael helped me shift from being a traditional medical practitioner to an inquisitive student of hypnosis; from subconsciously blocked to a clear and open vessel. His past lives work helped me explore and transform fears and patterns established in other lifetimes and turn them into clarity and empowerment in this lifetime. Michael's gentle, kind, loving nature created a learning environment that encourages curiosity, exploration, experiential learning and supports powerful growth."

Trisha Jacobson – Certified Success Principle Trainer for The Jack Canfield Training Group and founder of "Ripple on Silver Lake Retreat Center" in Silver Lake, NH

"When you feel better as a result of a past life recall experience—whether a physical symptom has been alleviated, an emotional issue soothed, or you simply feel more confident and peaceful about your life and its direction—you don't need to question the logical validity of the experience. You know it has empowered you to improve the quality of your life in a very tangible way."

Brian L. Weiss, MD
